Detailed Action

This is the first Office Action corresponding to original filing. The application contains 24 claims.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on April 19, 2004 has being considered by the examiner.

Claim Objections

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 15-21 have been renumbered 18-24, respectively.

Claim Rejections - 35 USC § 112

Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3632

Claim 1 is indefinite since it recites a mount and a clamp section but this is not correct.

The clamp section (20) and the end (22) of the arm form the mount.

Claim 2 lacks proper antecedent for "the vehicle".

Claim 5 lacks proper antecedent for "the operator".

Claim 7 lacks proper antecedent for "the vehicle".

Claim 9 is indefinite since it is reciting a person in a positive language.

Claim 15 lacks proper antecedent for "the vehicle".

Claim 17 is indefinite since "comprising" should be - - consisting - -.

Claim 18 is indefinite since it is reciting a person in a positive language.

Claim 20 lacks proper antecedent for "the vehicle".

Claim 21 recites the vehicle to be a boat, but this is already recited in claim 20.

Claim 23 is indefinite since it is reciting a person in a positive language.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 7-9, 11-14, and 17-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Pastore (Pat No 6,220,717).

The patent to Pastore shows a mounting device comprising an arm (14),

Art Unit: 3632

mount (18), a clamp (60), an accessory (32), a post (24) and an accessory clamp (36).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6, and 20-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pastore.

The patent to Pastore may not have the post and arm formed integral but it has been held to be within the general skill of a worker in the art to make plural parts unitary and viceversa as a matter of obvious engineering choice; in this particular it may facilitate the assembly of the device.

Allowable Subject Matter

Claims 10 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
